# SRR Aqua Systems

<http://www.srraquasystems.in/>

We are leading manufacturer and supplier of **water treatment and swimming pool equipment**. We also conceive, conceptualize and co-ordinate the implementation of turnkey projects.

## About Us

**SRR Aqua Systems** was founded in **1994** at **Hyderabad, India**. We are proud to be associated with **ICE (International Consumer Exhibition)** Hyderabad - 2010. Our mentor **Mr. Sudhakar Gudi** who has extensive experience in management, have benefited us immensely. We started our business with the projects related to construction service of Swimming Pool, drinking water projects, swimming pools and water sport resorts. But with the firm efforts of our adroit professionals, we ventured into the domain of manufacturing environmental friendly water treatment equipment and chemicals. We are proud that we have successfully executed more than 2500 swimming pool projects from 1994.

We have state of the art manufacturing and quality control facilities that are at par with international standards. We emphasize on quality right from the inventory till the final product. We offer the following range of products: Swimming Pool, Pool Accessories, Water Treatment Products, Chemicals and Pool Recreational Items. Our products are manufactured as per the GMP standards and specifications. We also undertake projects for water treatment plants, Nano technology based softening plants and pond water treatment projects.

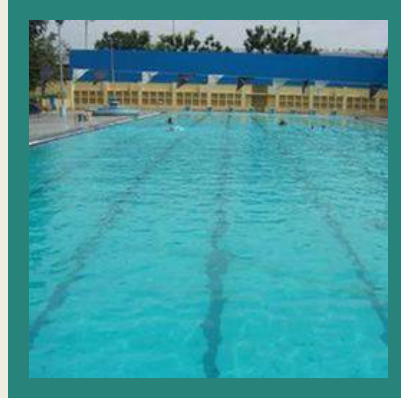

Our product range caters to the needs of various industries such as Water treatment Industries, Resorts, Hospitals, Health clubs, Institutions and Builder's Societies. Our well established network of dealers has...
